

Wednesday 31st January 2024, 18:30-19:30 – in person (Register Online)
Eastern Counties Branch Presents

Blind faith or paranoia? Trust and the integrity in the age of artificial intelligence & Eastern Counties Branch AGM 2024

This presentation will examine how and why we need to establish **trust in information** and why it matters for expert-based companies like TWI. It then examines how **artificial intelligence** is radically changing trust, before looking at some examples of **governance** that **could enable a more conscious, reflective and ultimately beneficial** engagement with AI.

TWI Digital Library – Paul will demonstrate the recently updated digital library, offering unique access to a wealth of knowledge and information **available for use** by **Professional Members of The Welding Institute**. This new resource includes over 10,000 items that were previously unavailable online, including CRP Reports, FAQs, Job Knowledge and E-books, as well as new content from the archive of TWI journals, conferences, seminars and reports.

Speaker: Paul Jones is Information and Knowledge Services Manager at TWI Ltd. He has information and knowledge management experience in the energy industry, power generation, financial services and R&D sectors. Paul and his team enable TWI staff and members to make better decisions by delivering trustworthy technical literature, materials properties data, patent network analyses, technology intelligence and market analysis.

***Did you enjoy 2023 programme?
Do you want your voice heard for 2024?***

All branch members are warmly invited to the **Eastern Counties Branch AGM 2024**. Take the opportunity to contribute to the **running of your branch** and to inform the committee of what you want from the **Branch 2024 programme**. Have your say by joining us **in person**.

Meeting Room G3, TWI Abington, CB21 6AL.

Refreshment will be available from 6PM.
